

## High Powered GFCIs & ELCIs

### 30 Amp High-Powered GFCIs

Pre-set trip levels and two feet line and load cord, these units support single phase power across a range of voltages. Dual LED indication lights display power and fault status. All units are automatic reset and NEMA 4X rated. Manual reset versions available upon request.

**Approvals:** cCSAus Certified

- Frequency: 60Hz
- Cable Configuration: 2' Yellow, SJEOOW cable, bare ends
- Response Time: 25mS max at 500 ohm fault
- Operating Temperature: -35°C to 66°C
- Reset Type: Automatic (manual reset available upon request)
- Enclosure: NEMA 4X and 6P wet location rated
- Switching Interface: Double insulated and recessed

Part Number	Volts/Amps	Cord Line & Load	Phase	Trip Level
<b>LECI-301201</b>	120V/30A	2' of 10/3 cord	1 $\emptyset$	6mA
<b>LECI-302083</b>	208V/30A	2' of 10/4 cord	3 $\emptyset$	6mA
<b>LECI-302403</b>	240V/30A	2' of 10/4 cord	3 $\emptyset$	6mA
